1 Formal CPD Point

CPD LIVE

Free CPD education online

This CPD seminar entitles you to 1 formal CPD point. Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate and answer sheet once you have attended the full seminar.

HOW TO HELP ARCHITECTS ACHIEVE THEIR OBJECTIVES THROUGH CLEVER DESIGN

Proudly supported by

Tilt The Built Environment Made Exceptional

1. What are the processes involved with designing new products so that they can achieve their aesthetic and practical goals?
2. What is and isn't possible to bring a new idea to manufacture?
3. What other parameters can influence the design of a new product?
4. What are the available processes, expertise and materials for project and site that can address client and design needs?
5. How do you achieve best outcome for a project, site, environment and client when designing or customising various products for particular projects?

At the end of this panel, attendees will be able to:

a) Identify the processes involved with designing new products to achieve aesthetic and practical goals

b) Define what is and isn't possible, including financial constraints, to bring a new idea to manufacture

c) Be aware of other parameters such as budgets that can influence the design of a new product

d) Familiarise yourself with available processes and materials that can address client and design needs

e) List how to achieve best outcome for a project, site, environment and client when designing or customising various products for particular projects
